To Whom It May Concern:

I am writing this letter of reference for Miss Cassandra (“Cassie”) Wischhoefer. I have known Cassie for three years as a student of computer science and cybersecurity here at George Fox University. I am one of Cassie’s major professors and academic advisors.

Cassie is an extremely bright young lady. She has shown an outstanding work ethic throughout her time here at George Fox University. Her problem solving skills are amazing. She has tremendous determination and dedication to completing the task at hand.

One characteristic that sets Cassie way beyond her classmates is that of curiosity. She always wants to take a discussion or project to the next level. A common question asked is “What if...?” That inquisitive nature is something I wish all students possessed but unfortunately very few do. Cassie is a gem in this regard.

Cassie’s personality is one that every employer is looking for in perspective employees. She knows when to lead and when to follow. She excels at creating a positive environment that allows projects to succeed. She has the deep technical skills to succeed individually and the soft skills to help her team succeed collaboratively.

I take great pride in recommending Miss Cassie Wischhoefer. She will be a great asset to all who work with her. Cassie will be an amazing success at whatever endeavor she chooses to pursue.

Thank you,

A handwritten signature in blue ink, reading "B. Wilson".
